JACKSON, MICHAEL Also see THE JACKSONS. At press time, Goldmine, along with the rest of world, received the stunning news of Michael Jackson's death.

The King of Pop will be sadly missed. Please note that the following prices reflect values for Jackson's output before his untimely death.

Many of these are expected to rise 20 - 50% and possibly more, based mainly on production runs, with promo items from the ’80s and most issues post-1990 (when all vinyl became limited) likely

to see the biggest increases. A similar, though more muted effect, is expected with regard to Jacksons and Jackson 5 listings.

—Exactly 25 copies were pressed as two 12-inch and three 10-inch records, with the presumption that at least some of them would be bootlegged onto CDs and into downloadable files via the Internet. (This has indeed happened, so many fans have heard the music.) It's not known whether any of the 25 copies have left the hands of their original recipients, so the price above is highly speculative and probably conservative; VG value 1000; VG+ value 2000
